EXPERIENCE

Tata Consultancy Services Java Developer

Lucknow, India
April 2026 - Present

- Built and Maintained **Digital Store** backend functionality using **OSGi Sling Model**, **Sling Servlet**, **PostgreSQL**, **Email Workflow** and **AEM backend integration**.
- Worked with **DevOps** tools including **Jenkins** for **CI/CD** and **automated deployments**, **Git/Github** for version control, and **SonarQube** for code quality analysis.
- Worked on **AEM backend components** using **OSGi** and **Sling**, implementing **business logic**, **backend validation**, and **application enhancements**.
- Worked with **PostgreSQL** for **database operations**, **data retrieval**, and **validation** as part of **backend development** and **troubleshooting**.
- Wrote **JUnit & Mockito tests**, cutting post-release issues and increasing **Testcase coverage** to **95-98%**.
- Developed and maintained **Java and Spring Boot microservices** for the **Marketing Tower**, applying **Spring Data JPA**, **multithreading**, **concurrency**, and **design patterns** to improve performance.
- **Led sprint planning**, **user story** refinement, and cross-functional deliverables as **Scrum Master (Backup PM)**, facilitating core **Agile ceremonies** to ensure **predictable team velocity** and **project delivery**.

SKILLS

Programming Languages: Java, JavaScript, SQL

Frameworks: Spring Boot, Spring Data JPA, Microservices, Node.js, Express.js, React.js

Databases: PostgreSQL, MongoDB, MySQL

APIs: REST APIs, GraphQL

CMS: Adobe Experience Manager

Tools: Postman, Jenkins, JUnit, Git, GitHub, GitLab, Linux

Project Management & Methodology: Jira, Agile Methodology

Computer Science Fundamentals: Data Structures & Algorithms, OOP, DBMS, OS, CN

PROJECTS

JWT Authentication System 📄 | *Java, Spring Boot, Spring Security, MySQL* July 2025 - Oct 2025

- Designed and implemented a **JWT-based authentication** system with secure login/logout flow, reducing unauthorized access attempts by **50%** in testing.
- Integrated **token expiration and refresh logic**, improving overall session security and API reliability.
- Conducted **performance testing on 20+ API endpoints**, ensuring response times under **200 ms** on average.

ScholarFusion 📄 | *Node.js, Express.js, MongoDB, JWT, Nodemailer, Cloudinary* Nov 2024 - April 2025

- Implemented secure user **authentication with JWT**.
- Integrated **Cloudinary** for media uploads.
- Enabled **email notifications** and **password recovery** via **Nodemailer** integration.
- Built personalized **dashboards for students and educators** to manage uploaded content securely.

ACHIEVEMENTS

- * Secured **Top 1% Rank** in **TCS CodeVita 2024** among 5.5 Lakh+ participants.
- * Achieved a **Five Star SQL** badge on **HackerRank**, validating strong SQL proficiency.
- * **LeetCode** – Max Rating **1608**; solved **550+ DSA problems** focused on algorithmic optimization.
- * **CodeChef** – Max Rating **1407**; participated in **rated contests** and improved **competitive coding skills**.
- * Maintained a dedicated **GitHub repository** with **50+ LeetCode problem solutions**.

EDUCATION

Feroze Gandhi Institute of Engineering and Technology

Bachelor of Technology - Computer Science and Engineering - **CGPA - 7.77**

August 2021 – June 2025

Raebareli, India
